

**Customize Your
Onsite Experience**

All Exchange packages are customized to meet your current needs.
Select all that you are interested in

One-on-One Executive Business Meetings	If you are taking part in our 1:1 meeting format, it is because our delegation has asked for your solution. Leave your booth gear at the office. These meetings are pre-selected so you can prepare for meaningful dialog, not a sales pitch.	10 <input type="checkbox"/>	20 <input type="checkbox"/>
30 Minute Master Class	You will lead a 30-minute session consisting of half the delegates. This session is positioned to present you as a “master” in the topic, and delegates will be attending for the opportunity to hear thought leadership on strategies, tactics, or case studies.	<input type="checkbox"/>	
Brain Weave Speaking Session	You will lead a 30 minute session to a select group of delegates (up to 15) from the Exchange in a private conference room. Designed around a topic, which lends itself to the current challenges our delegates are facing.	<input type="checkbox"/>	
30 Minute Roundtable Discussion	A 30 minute showcase presentation alongside other key industry leaders. The session will open with giving a short introduction of the session topic to the audience. The delegates then choose the topic area of most relevance and partake based on need.	<input type="checkbox"/>	
Plenary Session	A 30 minute platform presentation to the entire event audience (delegates, speakers and other solution providers). This speaking opportunity can be a client case study and or conducted as a panel with a client and/ or participants of your choosing. This is the grandest speaking platform at the event and helps leverage the networking, private meetings and interactions you’ll have with the attending executives.	<input type="checkbox"/>	
On Site Networking Support	Take full advantage of the networking possibilities while onsite. Looking to host a dinner, breakfast, happy hour or even a site tour? Let’s open the discuss to what is possible.	<input type="checkbox"/>
