SYNTHETIC AND SIMULATION TRAINING

November 7 - 9, 2018 | Marriott Orlando Downtown, Orlando, FL

<https://synthetictraining.iqpc.com/>

Dear [Name]

I'd like to request your approval to attend the [Synthetic and Simulation Training](https://synthetictraining.iqpc.com/) event this **November 7 - 9, 2018** at the **Marriott Orlando Downtown** in **Orlando, FL**

The Synthetic and Simulation Training summit will explore the current and future directions and utilization of virtual training & simulation technologies throughout the Military, Academia, Commercial Aviation, and Gaming sectors to ultimately enable military leaders to better plan, prepare, execute, and assess training events through minimal time, money, and people. Through thought leadership and technology demonstrations, the summit will provide direction and support for moving forward with STE advancements, improved acquisition processes, and finding an inexpensive requirements development process. Additionally, the summit will cover next steps for our current virtual Combined Arms Tactical Trainers which require high-overhead, are mainly facilities based, and have a very limited global terrain capability.

To give you a better idea of what this summit will cover, below is a list of sessions that I believe are particularly relevant to us:

- **Session Title, Speaker Name, Organization**
- **Session Title, Speaker Name, Organization**

As an attendee, I will return with all conference presentation materials to share with our team. Therefore, I'd like the opportunity to review the brochure with you and discuss how we can best leverage my time at the event.

Thank you for considering my request. I look forward to discussing this with you in further detail.

Sincerely,

[NAME]
