

2ND ANNUAL **BORDER TECHNOLOGY SUMMIT ANZ**

- 24th February 2026
- 59 Cameron Avenue, Canberra

BORDER AS A SOVEREIGN NATIONAL ASSET: **SECURING THE FUTURE THROUGH HARD TECH INNOVATION**

HEADLINE SPEAKERS INCLUDE:

AARON O'NEIL

Assistant Secretary Customs
& Border Modernisation,
Department of Home Affairs

MATT JONES

Assistant Secretary, Traveller,
Cargo and Trade Systems,
Department of Home Affairs

AMBER SHUHYTA

Commissioner, Illicit
Tobacco and E-cigarette,
Australian Border Force

HANS KOENDERINK

Assistant Commissioner
Crime Command,
Australian Federal Police

MICHAEL OUTRAM

Former Commissioner
(2018-2024),
Australian Border Force

WELCOME TO BORDER TECHNOLOGY SUMMIT 2026

Dear Colleagues,

As Conference Director, I am delighted to announce the **Border Technology Summit**, taking place in Sydney on **24 February 2026**. This event brings together leaders, innovators, and practitioners to explore the hard technologies shaping the future of border security—strengthening national sovereignty while enabling trade, travel, and economic growth.

This year, in a multipolar world, borders must both **connect and protect**. From securing supply chains to managing growing volumes of travellers and trade, smarter, technology-driven solutions are essential. The **2032 Brisbane Olympics** presents a unique opportunity to showcase a modern, seamless approach to international travel and security.

Join Australian border agencies and international partners to explore **next-generation surveillance, biometrics, AI threat detection, and digital innovations** that make borders secure, efficient, and resilient.

The border is no longer just a line on a map—it is a **strategic national asset**. Together, we will examine how technology can keep Australia **secure, connected, and future-ready**.

Kind Regards,
JOSEPH BIGGINS

A handwritten signature in black ink that reads "J. Biggins".

6 REASONS WHY YOU NEED TO ATTEND

Stay ahead of **evolving transnational threats** by learning how agencies are enhancing international cooperation, boosting intelligence sharing, and integrating cutting-edge surveillance technologies

Explore **scalable border management** and advanced technologies to handle the complexities of Australia's rising trade

Uncover how **digitalisation and automation** are meeting increasing travel demands while safeguarding our nation.

See how the **2032 Brisbane Olympics** aligns with Australia's 2050 border vision and prepares us for future challenges.

Engage with **top agencies and global partners** to tackle security challenges and discover effective solutions

Discover the industry's most innovative solutions for overcoming your **border control challenges**.

SPEAKER LINE UP INCLUDES

AARON O'NEIL

Assistant Secretary Customs
& Border Modernisation,
Department of Home Affairs

ERNIE VERINA

Regional Attache Oceania,
Homeland Security
Investigations

MATT JONES

Assistant Secretary, Traveller,
Cargo and Trade Systems,
Department of Home Affairs

MICHAEL OUTRAM

Former Commissioner
(2018-2024),
Australian Border Force

HANS KOENDERINK

Assistant Commissioner
Crime Command,
Australian Federal Police

**REAR ADMIRAL
LEE GODDARD**

Royal Australian Navy

AMBER SHUHYTA

Commissioner, Illicit Tobacco
and E-cigarette,
Australian Border Force

AN APPETITE FOR TECHNOLOGY:

The rapid adoption of technology has accelerated the demand for **digital and self-managed services** at the border

BIO SECURITY:

The potential of data and analytics to help us more effectively and efficiently prevent, predict, identify and respond to biosecurity threats.

THE FEDERAL BUDGET:

The Australian Government has invest \$2 billion for border enforcement and management between 2024 and 2025

THE SURVEILLANCE CHALLENGE:

The Maritime Security boundaries of ABF encompass nearly 12% of the earth's surface.

EMERGING TRADE:

Trade, particularly Australia's cargo industry, serves as the backbone to the economy, connecting Australia to the world through facilitation of the movement of goods. Patterns of trade are continuing to evolve and cargo volumes are forecast to continue to increase.

2032 BRISBANE OLYMPICS AUSTRALIA

is working towards a long-term vision, 2050, but there are short to medium-term opportunities to set goals in delivering a modernised border. The 2032 Brisbane Olympics is a platform to provide an improved, streamlined and digitalised experience for international travel.

INCREASING TRAVEL DEMAND:

Post-COVID, traveller numbers are steadily rising, requiring efficient and secure processing at the border.

DISCUSSIONS AT BORDER TECHNOLOGY SUMMIT 2026

Tuesday 24th February 2026 59 Cameron Avenue, Canberra	
08:50	Chairperson's Opening Remarks and Welcome Rear Admiral Lee Goddard, former Commander Maritime Border Command & Operation Sovereign Borders.
	<i>Borders as Strategic Assets in an Era of Disruption</i>
09:00	Beyond eGate – Borders as Strategic National Assets <ul style="list-style-type: none"> • Deglobalisation and U.S - China Strategic Competition • Criminal Exploitation and Economic • Emerging Threats and System Vulnerabilities • Technology, AI, and National Resilience • Strategic Recommendations Michael Outram, Former Commissioner (2018-2024), Australian Border Force
09:30	Panel Discussion: Securing Borders in a Fragmented World <ul style="list-style-type: none"> • What does a secure supply chain mean for Australia in today's multipolar world? • Where are the biggest blind spots in supply chain visibility for frontline agencies? • How do you modernise legacy systems without disrupting critical operations? • What builds trust when sharing data across borders and sectors? • Where can AI and analytics make the biggest impact on frontline decisions—and what guardrails are needed? • If you could redesign border tech from scratch, what capabilities are essential? <p><i>Panellists:</i> Hans Koenderink, Assistant Commissioner Crime Command, Australian Federal Police (AFP) Michael Outram, Former Commissioner (2018-2024), Australian Border Force Evan Smith, Chief Executive Officer & Co-Founder, Altana AI</p>

10:00	Speed Networking Session Fast-track new connections in this high-energy session designed to introduce you to key peers and partners across the border technology, security, and government ecosystem.
10:20	The Connected Border: Turning Data, Devices and Duty into One Trusted System <ul style="list-style-type: none"> • From islands of inputs to a truly connected operational picture • The digitally confident frontline: Software, sensors and AI that work for officers and the public • Trust by design: Ethics, privacy and security in a high surveillance border • A roadmap to 2032: Modernising a 5% of the planet border without stopping it Rhys Hodgson, Managing Director, Axon 
10:50	Morning Break & Demo Zone Open <i>Step out of the conference room and into the action — connect with peers, explore the latest innovations in border technology and security, and experience live demonstrations from leading solution providers shaping the future of border management across Australia and New Zealand.</i>
	<i>Travel & Trade Border Protection</i>
11:20	Customs, Cargo & Trade Tech Innovations <ul style="list-style-type: none"> • Digitised cargo clearance for speed and accuracy. • AI/IoT to secure global supply chains. • Trade efficiency without compromising security. Commander Aaron O'Neill, Assistant Secretary Customs & Border Modernisation, Australian Border Force
11:50	Identity at the Edge: Biometrics for Trusted Border Operations <ul style="list-style-type: none"> • Operational Certainty in Uncertain Times: How biometric identity verification supports secure, efficient border crossings amid geopolitical and technological fragmentation. • Modernising Without Disruption: Lessons from integrating biometric systems into legacy environments while maintaining mission-critical performance.

	<ul style="list-style-type: none"> Privacy-First Innovation: Balancing advanced identity technologies with public trust, ethical standards, and regulatory compliance. <p>Robert Avell, Federal Sales Manager, IDEMIA Public Security Travel and Transport</p> 
12:10	<p>Futureproof Borders: Building Secure & Seamless Traveller and Trade Systems</p> <ul style="list-style-type: none"> Technology vision for traveller and trade systems. Secure, seamless border crossings. Futureproofing Australia's border IT infrastructure. <p>Aled Hall, Director, Traveller, Cargo and Trade Delivery Office, Department of Home Affairs</p>
12:40	<p>Panel Discussion: Operational Innovation at Airports & Ports – Border Technology at the Frontline</p> <ul style="list-style-type: none"> Smart gates, sensors, and automation in action. Tech-enabled passenger and cargo screening. Boosting efficiency while tightening security. <p><i>Panel Members Include:</i></p> <p>Commander Aaron O'Neill, Assistant Secretary Customs & Border Modernisation, Australian Border Force Aled Hall, Director, Traveller, Cargo and Trade Delivery Office, Department of Home Affairs Monica Collins, First Assistant Secretary Biosecurity Operations Division, Department of Agriculture, Fisheries and Forestry</p>
13:10	<p>Lunch Break and Demo Zone Open</p> <p><i>Join us in the expo hall to connect with peers, explore the latest innovations in border technology and security, and experience live demonstrations in the Demo Zone.</i></p>
	<p><i>Criminal Networks and Border Control: A Regional Response</i></p>
14:10	<p>Targeting Illicit Trade: Securing Borders Against Tobacco and E-cigarette Smuggling</p> <ul style="list-style-type: none"> Understanding the Threat: How illicit tobacco and e-cigarette smuggling undermines public health, revenue, and border integrity. Coordinated Enforcement: ABF's multi-agency approach to disrupting criminal networks and supply chains. Tech-Enabled Disruption: Leveraging intelligence, screening tools, and data to detect and prevent illicit flows in a fragmented global landscape.

	Amber Shuhyta , Commissioner, Illicit Tobacco and E-cigarette, Australian Border Force
14:40	<p>Securing the Pacific: Disrupting Criminal Networks Across Borders</p> <ul style="list-style-type: none"> • Targeting Illicit Flows: How HSI is working with regional partners to detect and disrupt drug trafficking, human smuggling, and illicit trade across Pacific routes. • Operational Collaboration: Real-world examples of joint investigations and intelligence sharing with ABF, AFP, and Pacific law enforcement to strengthen border enforcement. • Building Regional Resilience: Supporting long-term capacity building, legal cooperation, and trusted networks to secure borders in a geopolitically complex region. <p>Ernie Verina, Regional Attache Oceania, Homeland Security Investigations (HSI)</p>
15:10	<p>Afternoon Break & Demo Zone Open</p> <p><i>Step out of the conference room and into the action — connect with peers, explore the latest innovations in border technology and security, and experience live demonstrations from leading solution providers shaping the future of border management across Australia and New Zealand.</i></p>
	Maritime Border Security
15:40	<p>Operation Sovereign Borders – Tech-Enabled Maritime Security</p> <ul style="list-style-type: none"> • Leveraging advanced surveillance to protect Australia’s maritime domain. • Coordinated response across Defence, Border Force, and partner agencies. • Tech-driven deterrence of illegal maritime ventures. <p>Rear Admiral Lee Goddard, former Commander Maritime Border Command & Operation Sovereign Borders.</p>
16:10	<p>Maritime Decision Advantage: Persistent AI Monitoring for the New Normal</p> <p>In the Indo-Pacific, archipelagic and maritime sovereignty is increasingly challenged by "dark ships"—vessels that disable AIS to conduct illegal fishing, evade sanctions, or engage in grey-zone activities. Achieving a true Maritime Decision Advantage requires the capability to detect and classify vessels even when they are operating in Emission Control (EMCON).</p> <p>This session examines how the Planet MDA Solution acts as a force multiplier, scanning vast areas of open ocean to provide unclassified, unspoofable intelligence. We will demonstrate how integrated AI/ML workflows transform high-</p>

	<p>cadence imagery into a Common Operating Picture, allowing regional partners to move beyond traditional tasking toward automated, shareable insights to secure sovereign borders and resources.</p> <p>Key Highlights:</p> <ul style="list-style-type: none"> • Non-Cooperative Detection: Gaining a "First Look" advantage against vessels attempting to hide by turning off tracking signals. • Protecting Sovereign Waters: Using algorithmic tracking to identify "shadow fleets" and spoofing that threaten regional security. • The Intelligence Bridge: Strengthening regional partnerships through unclassified, shareable data that removes disclosure bottlenecks. • Automated Pattern Recognition: A technical look at how automated feeds provide classification and heading scores to accelerate decision-making. <p>Tom Farrow, Strategic Business Development, APAC, Planet</p> 
16:30	<p>Chairperson's Closing Remarks Rear Admiral Lee Goddard, former Commander Maritime Border Command & Operation Sovereign Borders.</p>
16:45	<p>Border Technology ANZ Summit – Drinks Reception & Demo Zone Open Unwind and connect with peers over drinks as the Demo Zone opens for an exclusive showcase of the latest innovations in border technology and security. Experience live demonstrations, meet solution providers driving smarter, faster, and more secure border operations, and toast to the ideas shaping the future of border management across Australia and New Zealand.</p>

THANK YOU TO OUR SPONSORS

IDEMIA

For over 40 years IDEMIA Public Security's Travel & Transport business line revolutionize global travel with innovative solutions that combine operational efficiency with the highest security standards, ensuring seamless travel experiences from start to finish.

Leveraging our in-house technologies - including Artificial Intelligence, biometrics and data analytics - we support cruise liners in streamlining travelers and crew clearance processes, notably the embarking and disembarking process, enhancing operational efficiency, and delivering high-class, digitalized, secure guest experience, thus reinforcing their brand and increasing customer satisfaction.

Altana is the network for trusted trade. Our AI-powered product network empowers governments and businesses to build a more resilient and secure global economy while keeping trade flowing. Customers like Boston Scientific, General Atomics, L.L.Bean, Maersk, U.S. Customs and Border Protection, and the UK Department of Business and Trade use Altana to design optimal product lines, protect national security, and promote economic growth through collaboration.

Apstec

Apstec Systems® is a world-leading innovator of real-time, highthroughput, people screening and automatic detection technology. Apstec develops AI-driven screening technology to detect explosives, weapons, and narcotics. The Apstec Falcon Select solution is specifically designed to meet the needs of Customs operations to provide fast and non-invasive screening of people for illicit drugs concealed on the body or in body-worn/hand-carried bags.

Planet

Planet is the leading provider of global, daily satellite imagery and geospatial solutions. Planet is driven by a mission to image all of Earth's landmass every day, and make global change visible, accessible, and actionable. Planet provides mission-critical data, advanced insights, and software solutions to over 950 customers, comprising the world's leading agriculture, forestry, intelligence, education and finance companies and government agencies, enabling users to simply and effectively derive unique value from satellite imagery. To learn more visit www.planet.com and follow us on X (formerly known as Twitter) at @planet

Axon

Axon is a public safety technology company dedicated to protecting life through innovative, integrated solutions. Best known for TASER energy devices and body-worn cameras, Axon builds a connected ecosystem that includes digital evidence management, real-time operations software, and advanced AI tools. Its products are used by law enforcement, government agencies, and enterprises worldwide to improve transparency, reduce risk, and enhance decision-making. Axon's mission is to make the bullet obsolete and create a safer, more just future.

TRM Labs

TRM Labs provides blockchain analytics solutions to help law enforcement and national security agencies, financial institutions, and cryptocurrency businesses detect, investigate, and disrupt crypto-related fraud and financial crime. TRM's blockchain intelligence platform includes solutions to trace the source and destination of funds, identify illicit activity, build cases, and construct an operating picture of threats. TRM is trusted by leading agencies and businesses worldwide who rely on TRM to enable a safer, more secure crypto ecosystem. To learn more, visit www.trmlabs.com.

Fivecast

Fivecast delivers cutting-edge open-source intelligence solutions that help organisations identify and mitigate threats. Used and trusted by leading defence, national security, law enforcement, corporate security and financial intelligence organisations around the world, our AI-powered platform enables analysts to navigate vast amounts of publicly available data across the Surface, Deep and Dark Web. We transform complex data into clarity, empowering proactive decisions and helping you stay ahead of emerging threats.

SGS

SGS is the world's leading Testing, Inspection and Certification company. We operate a network of over 2,500 laboratories and business facilities across 115 countries, supported by a team of 99,500 dedicated professionals. With over 145 years of service excellence, we combine the precision and accuracy that define Swiss companies to help organisations achieve the highest standards of quality, compliance and sustainability. Our brand promise - when you need to be sure - underscores our commitment to trust, integrity and reliability, enabling businesses to thrive with confidence. We ensure compliance and sustainable growth by enhancing knowledge, skills and processes. In an increasingly globalised economy, your organisation must keep up to date with complex regulatory obligations and best practices to reduce legal, financial and reputational risks. We provide you with the world's most comprehensive range of auditing, assessment, certification, consulting, validation and regulatory compliance services powered by the latest technology and digital tools. Our global network of specialists provides the knowledge and expertise to help you comply with local and international standards and ensure your people have the skills, training and professional development to help your business thrive. Our innovative business enhancement solutions enable you to manage risk across supply chains and deliver operational efficiency, cost savings and sustainability, while increasing your value to society.

Ocius Technology

The Ocius Bluebottle delivers world-leading persistent uncrewed surveillance for maritime domain awareness and border security.

Bluebottles operate 24/7 with the Royal Australian Navy supporting Maritime Border Command. Bluebottles are also in service with the Royal New Zealand Navy and operate in the US. Powered by solar, wind and wave energy, and available in a diesel hybrid variant, Bluebottles can remain on station for months while carrying acoustic, radar, visual and other payloads - providing robust surveillance across vast maritime domains.

Cellebrite

Cellebrite's (Nasdaq: CLBT) mission is to enable its customers to protect and save lives, accelerate justice and preserve privacy in communities around the world. We are a global leader in Digital Investigative solutions for the public and private sectors, empowering organizations in mastering the complexities of legally sanctioned digital investigations by streamlining intelligence processes. To learn more, visit us at www.cellebrite.com.

CONFERENCE PACKAGES & REGISTRATION

Join us for Australia's premier event for security and financial crime professionals. Choose the pass that best suits your role and organisations type.

VIP COMPLIMENTARY GOVERNMENT PASS

Available Exclusively for Australian Government Employees working in security, intelligence or policy roles

This pass includes:

- Full access to all conference sessions and keynotes
- Entry to networking and roundtable discussions
- Complimentary Registration (Limited Availability, Subject to Organisers Approval)

VENDOR / TECHNOLOGY PROVIDER & DELEGATE PASS

AU\$3,595
+ 10%GST

For all solution providers, consultants or vendors offering products or services to attendees

This pass includes:

- Full access to all conference sessions and keynotes
- Networking sessions with decision-makers

If you would like to secure your pass, please email us at enquire@iqpc.com.au
