THE ANNUAL GENERAL MEETING FOR THE GLOBAL
INTELLIGENCE, C4, & SPACE COMMUNITY

6 – 7 May 2026
Hilton London Syon Park, London, UK

“These events have the opportunity to bring everyone together. The only way we are going to succeed in the future is by working as a whole community to address these issues.”

GENERAL SIR JIM HOCKENHULL, COMMANDER, UK CSOC

SPONSORSHIP & EXHIBITION PROSPECTUS

New for 2026: The incorporation of the Space Operations Summit, taking place as a dedicated stream on the agenda exploring the strategic integration of space-based capabilities into multi-domain operations.

EVENT OVERVIEW

Welcome to **C4ISR Global 2026**, the 13th annual gathering of the global intelligence and C4 community.

This year, we unite more than 350 strategic decision makers, innovators, and experts from over 35 nations to shape the future of multi-domain operations.

In today's rapidly evolving threat environment, our discussions are more critical than ever. The ongoing conflict in Ukraine, coupled with the strategic challenges of the Indo-Pacific, underscores the importance of advancing operational capability while ensuring interoperability, secure communications, and resilience across domains. Effective C4ISR continues to be a determining factor in combat effectiveness, remaining paramount to delivering the best economy of force and survivability.

New for 2026, we are proud to introduce the **Space Operations Summit**, running alongside the C4ISR programme. This dedicated track will explore the strategic integration of space-based capabilities into multi-domain operations, with a focus on Space Situational Awareness (SSA), Space Domain Awareness (SDA), and Space-ISR. The growing importance of space as an operational domain makes this addition both timely and essential.

"It was a constant flow of interested people; industry and military alike."

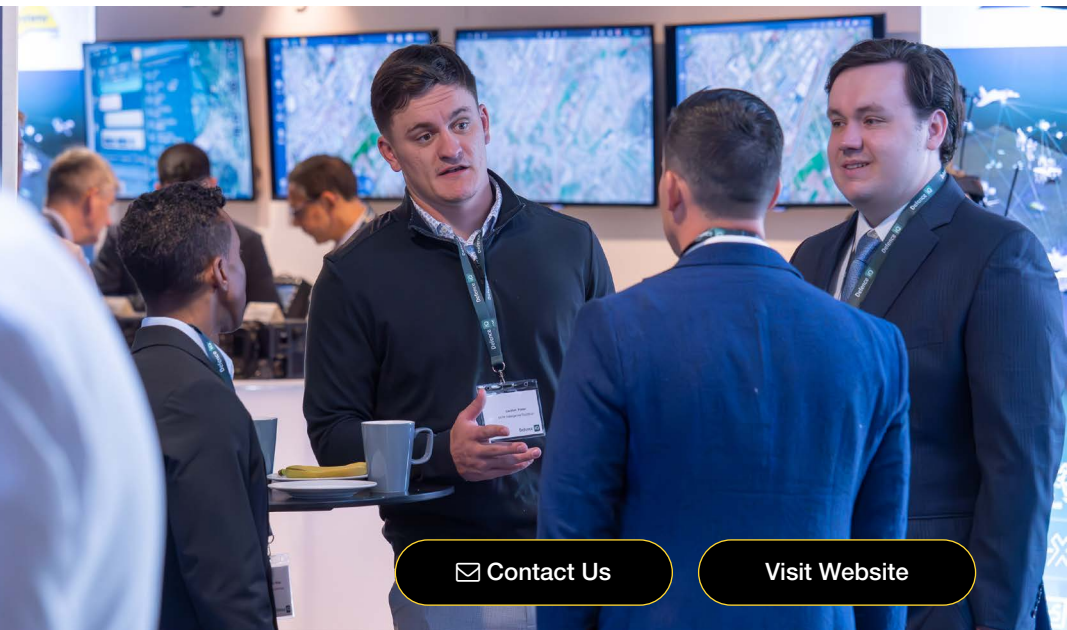

Jürgen M. Halder, Vice President Airborne SIGINT, Hensoldt

"Excellent event. Well-run, very good speakers and topics. Outstanding networking opportunities and relationship-building."

Brigadier David Ward, Director General Health Reserves - Army, ADF

"This is our third time to attend and they all have been valuable. The encouragement for folks to ask questions are good. Q&A is a valuable aspect of the event."

Chris Yerger, CEO, Fort Defiance Industries (FDI)

ENGAGEMENT OPPORTUNITIES

Thought Leadership

Showcase your expertise in a main-stage session or through one of our themed track sessions to a large, international audience of high-level personnel, fostering opportunities for collaboration and advancement.

Panel Discussions

Join a unique panel discussion to demonstrate your importance in the community, or tailor a panel to include end-users in the discussion.

Exhibitor Booths

Showcase your capabilities and innovations, and put your solutions in front of our entire audience in our main exhibition hall (the footfall and networking hub of the venue). Stands are running out, so secure your spot!

Networking Drinks Reception

Continue strategic conversations after the main sessions have finished by hosting a drinks reception for conference attendees to enjoy. Engage with senior decision makers and network with the full armoured vehicle ecosystem in a more casual setting.

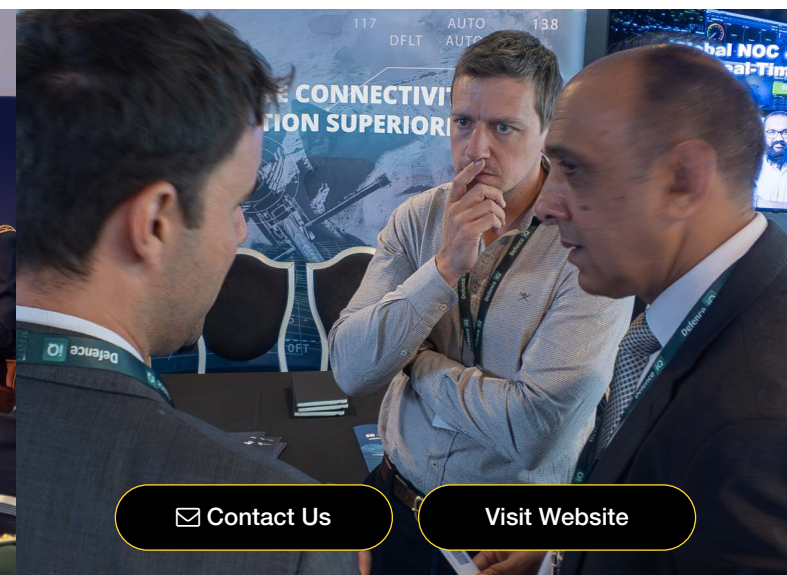

Branding

Increase your brand visibility on-site with unique branding opportunities including stationary, coffee cups, charging stations and more. Keep your organisation front of mind throughout the event and make a lasting impact on your target customers.

Pre-Event Marketing

Get maximum exposure in the lead up to the event with an extensive marketing campaign, featuring your session on the event brochure, website, and LinkedIn.

[✉ Contact Us](#)

STRATEGIC PARTNERSHIP TIERS

FOUR STAR LEAD PARTNER

The Four Star Lead Partnership commands maximum prestige, exclusivity, and exposure – positioning you as the global market leader and the conference host partner – setting the tone and context for the event.

This position will demonstrate your expertise as the leading authority in the field and reinforce your status as a thought-leader. You will benefit from greater intellectual contribution for the duration of the conference in the form of a Prime Keynote Presentation, a Strategic Panel with end-users and key clients - designed by you, and a seat on the Global Industry Leaders Panel.

You will augment your place as the principal Solution Provider with exclusive pre-event and onsite promotional activities that elevate your status with the highest visibility, keeping your corporate brand front-of-mind with the senior representatives from Armed Forces and MoDs, as well as other event personnel and industry partners in attendance.

To secure this role, you will have leading solutions spanning multiple market areas and be able to share research, pushing industry standards forward. Demonstrate cutting-edge innovation or deliver a leading client case study, where possible, bringing the client with you to share the end-user perspective.

THREE STAR PARTNER

The Three Star Partnership is reserved for leading industry providers who can demonstrate credibility in a specialist area, as well as on the broader conference topic – trusted by Armed Forces and MODs, to help solve their mission-critical challenges. Typically, our Three Star Partners progress to Four Star Partners at future conferences to capitalise on the opportunity to interact with our community more meaningfully.

You will strengthen your brand visibility by having a significant presence at the conference by showing your existing customers that your company is leading the way, reaffirming their confidence in doing business with you.

The Three Star Partner will also have exposure to key organisations you're not yet working with, getting on the radar of senior decision-makers and budget holders from the companies of government organisations you're targeting but haven't had an opportunity to get in front of yet.

TWO STAR PARTNER

The Two Star Partnership is an effective way to showcase your products and services. Companies are constantly innovating, so your target audience may think they know you but are unlikely to know enough about your latest offerings and innovations. For established companies, this partnership level allows you to reengage and reintroduce your latest products and services. For new market entrants, showcasing what you do at conferences is the fastest way to grow market share.

ONE STAR PARTNER

The One Star Partnership role in the event is an effective way of networking. Exhibiting provides a focal point to meet with and engage with your company. Existing customers will know where to find you, and those unaware of your products will surely stop to learn more. The natural footfall you get by being an exhibitor catalyses your networking potential and means you'll walk away from the conference with a pipeline full of new contacts and leads.

STRATEGIC PARTNERSHIP TIERS

THREE STAR PARTNER

Intellectual Contribution & Thought Leadership

- 30 Minute Speaking Slot
- Global Industry Leaders Panel Seat
- Up to 10 x Conference attendee passes

Strategic Engagement Activity

- Drinks reception
- Sponsor of Private 'invite-only' Dinner (20 people including team)
- Private Meeting Room
