Global Forum  
**CANADA . 20**  
Temperature Controlled  
Life Science Supply Chains

**Creating End-to-End Supply Chain Synergy**

Good Afternoon,

In line with the guidance provided by CDC, WHO and the Federal Government we have taken the decision to transition the **Cold Chain Global Forum Canada Summit** into a **digital event on June 16 – 17, 2020**. As the health and safety of our attendees, speakers, sponsors and staff are our primary concern, this was a very easy decision to make.

In addition the digital event, you will **also receive a voucher to attend** our [Temperature Control and Logistics U.S. Summit](#), on September 22-25 at the Sheraton Boston.

The team and I are 100% focused on modifying the event as quickly as possible so that we can get you more information within the next couple of days. The next update will include an updated agenda, outline of event structure and format and of course how to access the digital event. Saying that, if you have any questions please don't hesitate to reach out and we will be sure to do our best to answer any query you have.

I wanted to take this moment to thank you for your patience, support and flexibility in what is a difficult time for everyone across the world. We look forward to welcoming you all virtually this June for the Cold Chain Global Forum Canada Summit and physically this September for the Temperature Control and Logistics U.S. Summit.

Thank you,

Marie DiTrapani,  
Executive Director | [Cold Chain Global Forum Canada Summit](#)  
June 15-17, 2020
