

FPSO WORLD CONGRESS

Innovating for Impact: Accelerating Emissions Reduction and Production Excellence

22 – 25 September 2026

Singapore

The FPSO market continues to evolve in complexity, ambition, and strategic importance. With over 50 new units expected by 2029 and increasing investments across South America, West Africa, and Southeast Asia, the sector remains a vital pillar of global offshore production. Yet, success in 2026 and beyond will hinge not just on project execution—but on how quickly and effectively companies can balance production excellence with the pressing mandate for decarbonisation.

As carbon costs climb, regulatory pressure intensifies, and investor scrutiny deepens, FPSO stakeholders must innovate with purpose. From carbon capture integration to digital twin deployment, the industry is turning to technology as both a performance enabler and an environmental imperative. Retrofitting ageing assets, enhancing topside energy efficiency, and embedding low-emission design principles are no longer aspirational—they are operational priorities.

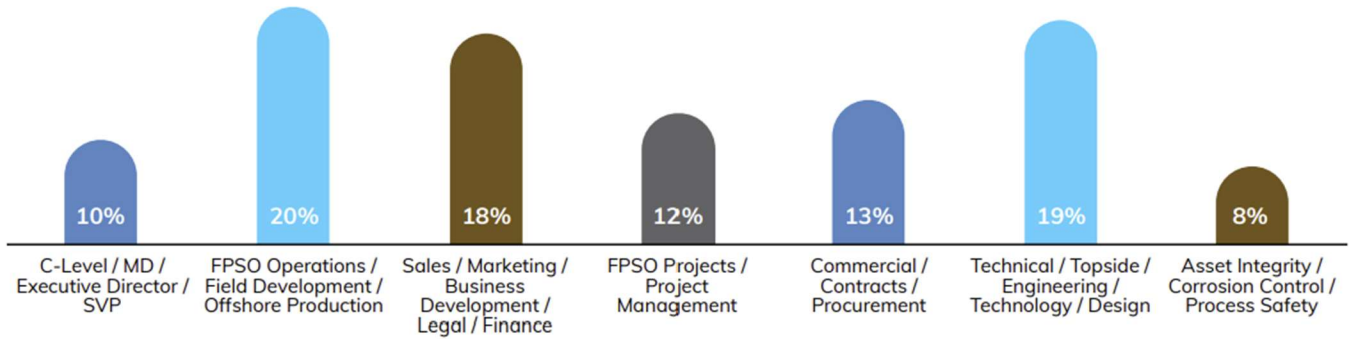

Amid this transition, the **FPSO World Congress 2026** convenes at a pivotal moment. It is the global forum where strategy meets solution: a platform for asset owners, operators, EPCs, regulators, and solution providers to navigate challenges, exchange intelligence, and spark collaboration.

What's Unique About FPSO World Congress 2026?

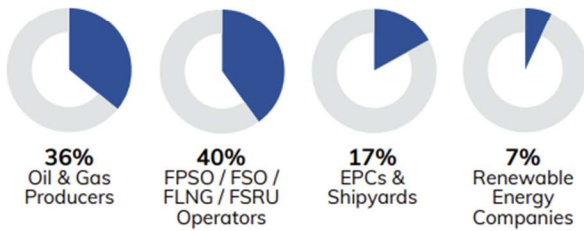

- Running in its **27th year**, the FPSO World Congress 2026 is the **world's #1 and longest-standing** platform dedicated **solely to the FPSO industry**.
- Gain **exclusive access to a global network** of Oil, Energy, and FPSO professionals spanning **over 40 countries**.
- Engage with **senior and decision makers** from leading FPSO operators, contractors, and technology providers such as **Medco, Yinson, Inprocess**, and more. Our event facilitates high-level networking and strategic partnership formation.
- FPSO World Congress 2026 is the flagship platform of the **FPSO Network** backed by a **community of more than 21,000 industry professionals**.

Who will be Attending FPSO World Congress 2026?

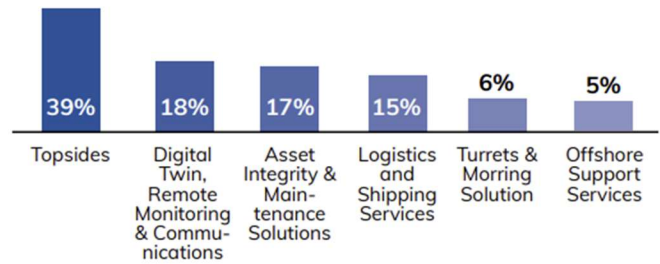

AUDIENCE OVERVIEW

PRIMARY MARKET PROFILE

SOLUTION & SUBCONTRACTOR PROFILE

FPSO World Congress Day One 23 September 2026	
08:15	Morning Refreshments & Registration
08:50	Welcome Address by FPSO Network
08:55	Opening Remarks by Congress Chairperson
The Offshore Energy Market Outlook	
09:00	Resetting the Offshore Energy Narrative for the Digital Decade <ul style="list-style-type: none"> Framing transformation around global energy demand and digital scale Repositioning offshore operations in the decarbonisation timeline Evaluating tech adoption across upstream, midstream and marine assets Building leadership credibility in volatile market cycles
09:30	Industry Thought Leadership – Foundation Partner (Inprocess)
10:00	Building an Offshore Intelligence Ecosystem for Future Resilience <ul style="list-style-type: none"> Connecting upstream, marine and sustainability metrics into one platform Leveraging cross-asset visibility for executive decision support Enabling proactive risk management through unified data streams Sustaining stakeholder engagement via real-time operational transparency
10:30	 Morning Break & Refreshments Take a break and use this time to network with your fellow industry peers at our Exhibition Hall!
Net-Zero in Action: Practical FPSO Decarbonisation Strategies	
11:00	Industry Power Panel Operationalising Net-Zero Targets in FPSO Projects <ul style="list-style-type: none"> Fuel switching, electrification, CCS, and carbon removal technologies Navigating the cost curve: green premiums vs cost parity Integrating sustainability into project design, EPC, and operations Senior Representative, ABB
11:30	Maximising Value from Brownfield FPSOs: Emissions Reduction Through Smart Retrofits <ul style="list-style-type: none"> Strategic retrofit investments: Which upgrades deliver the strongest operational and emissions ROI Minimising flaring, modernising power systems, and digitising legacy FPSO infrastructure How to reduce downtime and maintain production continuity during emissions-focused upgrades
12:00	 Speed Networking Session Join us in this Speed Networking Session where you will be able to meet other participants at the Congress! During this session, you will have the opportunity to engage with several leaders in a short amount of time and exchange business cards to take conversations beyond the Congress.
12:20	 Lunch Break Take a break and use this time to network with your fellow industry peers at our Exhibition Hall!
13:20	Implementing Fuel Switching and Hybrid Power on FPSOs <ul style="list-style-type: none"> Evaluating alternative fuels (LNG, ammonia, methanol) for operational viability and emissions impact Case studies of successful hybrid power system deployments and performance gains Balancing fuel cost, availability, and carbon reduction targets
13:50	Industry Thought Leadership – Akselos

14:20	Panel Discussion Integrating Carbon Capture and Storage (CCS) with FPSO Operations <ul style="list-style-type: none"> • Technical and commercial challenges of retrofitting CCS on existing FPSOs • Assessing CCS-ready FPSO designs and future-proofing new projects • Opportunities for FPSOs as offshore carbon hubs to monetise captured CO₂
14.50	Industry Thought Leadership – <i>Reserved for Aize</i>
15.20	Afternoon Break & Refreshments  Take a break and use this time to network with your fellow industry peers at our Exhibition Hall!
15:50	Day 1 Prize Giveaway & Lucky Draw  Visit our Exhibition Hall, learn more about partners of the FPSO World Congress and you stand a chance to win prizes proudly sponsored by our partners!
Monetising Decarbonisation & Future-Proofing Assets	
16.00	Commercial Benefits of Energy Efficiency: Reducing OPEX While Cutting Emissions <ul style="list-style-type: none"> • Case studies on energy optimisation delivering both cost and carbon savings • Practical steps for measuring and verifying energy efficiency improvements onboard • Linking operational efficiency gains to improved financial performance and valuation
16:30	Future-Proofing FPSO Assets Through Strategic Technology Adoption <ul style="list-style-type: none"> • Identifying key upgrades that deliver commercial and sustainability value • Evaluating the business case for new technologies in emission reduction • Prioritising innovations with measurable impact on asset longevity and performance
17.00	Chairperson's Closing Remarks
17.10	World Offshore Week – Happy Hour Networking Drinks!
18.30	End of Congress Day 1

FPSO World Congress Day Two 24 September 2026	
08:15	Morning Refreshments & Registration
08:50	Welcome Address by FPSO Network
08:55	Opening Remarks by Congress Chairperson
Reducing Risk and Maximising Value in FPSO Projects	
09:00	The Global FPSO Outlook: Project Pipeline, Risks, and Revenue Potential <ul style="list-style-type: none"> Global FPSO project tracking: Who's building what, where, and when? Navigating CAPEX inflation, project delays, and supply chain volatility Market sentiment: investor appetite, contracting trends, and forecasted returns
09:30	Industry Thought Leadership
10:00	Optimising Project Execution: Lessons from Successful FPSO Deliveries <ul style="list-style-type: none"> Key factors driving on-time and on-budget project delivery Best practices in supply chain management and vendor coordination Risk mitigation techniques during fabrication and commissioning
10:30	 Speed Networking Session Join us in this Speed Networking Session where you will be able to meet other participants at the Congress! During this session, you will have the opportunity to engage with several leaders in a short amount of time and exchange business cards to take conversations beyond the Congress.
10:50	 Morning Break & Refreshments Take a break and use this time to network with your fellow industry peers at our Exhibition Hall!
11:20	Maximising Asset Value through Lifecycle Management <ul style="list-style-type: none"> Proactive asset integrity and maintenance planning for risk reduction Balancing production optimisation with operational safety Leveraging data analytics for predictive risk management
11:50	Industry Thought Leadership
12:20	Panel Discussion Financial Risk Management in FPSO Projects <ul style="list-style-type: none"> Strategies to hedge against market volatility and currency risks Structuring financing to support project resilience Insurance solutions tailored to FPSO project challenges
13:00	 Lunch Break Take a break and use this time to network with your fellow industry peers at our Exhibition Hall!
Driving Value Through Technology: Enhancing Efficiency and Compliance	
14:00	Cloud-Based Platforms Driving Collaboration and Efficiency <ul style="list-style-type: none"> Enhancing cross-functional team collaboration through cloud-enabled data sharing Improving project management and workflow automation with cloud solutions Strengthening security and access control for sensitive FPSO information
14:30	Industry Thought Leadership
15:00	Advanced Analytics for Optimising FPSO Energy Consumption <ul style="list-style-type: none"> Using big data to identify energy-saving opportunities and reduce waste Benchmarking performance against industry standards for continuous improvement Aligning analytics outputs with operational and sustainability KPIs
15:30	 Afternoon Break & Refreshments Take a break and use this time to network with your fellow industry peers at our Exhibition Hall!

16:00 	Day 2 Prize Giveaway & Lucky Draw Visit our Exhibition Hall, learn more about partners of the FPSO World Congress and you stand a chance to win prizes proudly sponsored by our partners!
16:10	Robotics and Automation in FPSO Operations <ul style="list-style-type: none"> • Deploying drones and robots for inspections and hazardous task automation • Increasing operational efficiency while reducing human risk exposure • Integrating robotic data into asset management and compliance systems
16:40	Closing Keynote Panel Discussion Integration of Renewable Energy Technologies with FPSO Systems <ul style="list-style-type: none"> • Incorporating solar, wind, or hybrid power sources to reduce carbon footprint • Technical and commercial challenges of renewable integration offshore • Case studies of successful renewable-powered FPSO operations
17:20	Chairperson's Closing Remarks and End of Congress
