

FUTURE INDIRECT FIRES

January 27 & 28, 2026
Westin Hotel, Arlington, VA

THE PREMIER PLATFORM FOR INDIRECT FIRES
LEADERS TO NETWORK, COLLABORATE AND LEARN
ABOUT INNOVATIVE COMMERCIAL SOLUTIONS

SPONSORSHIP & EXHIBITION PROSPECTUS

WELCOME

Welcome to the 3rd annual IDGA Future Indirect Fires Summit.

With a new location in Arlington, Virginia, the 2026 summit promises a premier forum for dynamic discussions on the future of indirect fires.

Together we will build on last year's discussions and further explore all things indirect fires. We will cover indirect fire platforms, howitzer modernization, loitering munitions and more.

Throughout the two-day conference, sessions will include updates and advancements since last year's gathering. We plan to engage in discussions on short and long-range fire support systems, C2, munitions, production, testing, training, lessons learned, and the role of indirect fires in both the European and Indo-Pacific theaters and threat landscapes.

Join us as we dive into current systems, modernization, updates and supporting successful indirect fires operations.

Sincerely,

Emma Rosenzweig
Conference Producer
IDGA

MEET THE CHAIRMAN

Paul Daniels was commissioned as an Army artillery officer in 1988 after graduating from Stevens Institute of Technology with a degree in mechanical engineering. He served in numerous cannon and rocket artillery units, including operational deployments during the first Gulf War, Operation Uphold Democracy in Haiti, and Operation Iraqi Freedom. Paul also served as a strategic planner on the Army Staff, and as Special Assistant to the Commanding General, 1st Infantry Division in Tikrit, Iraq. He retired as a colonel and culminated his 24-year career as a founding member of US Africa Command, leading its Strategy and Policy Division and serving as a strategic advisor to the command's three-star deputy commander.

After retiring from the US Army in 2012, he joined Raytheon Missile Systems (now Raytheon Missiles & Defense). Spending 10 years at Raytheon, Paul's broad domestic and international experience—from new business capture to leading a portfolio of long range precision fires development and production programs—places him in a unique position to help military customers and defense companies accomplish their common goal of putting superior capabilities in the hands of U.S. and allied military service members. Paul is currently the President of P. Daniels Consulting LLC; a venture focused on helping defense companies—small and large—grow their business and enter new markets. He holds a degree of Master in Public Administration from Harvard University's John F. Kennedy School of Government and was a Council on Foreign Relations International Affairs Fellow in Tokyo, Japan.

"The wide span of the audience makes this event really work. Having the PEOs/PMs, DOT&E, and industry partners speak and hear their perspectives was valuable for me from the test perspective. I liked the mix of briefs and then discussions with multiple Senior Leaders/SMEs onstage."

– Director, Ground Combat Systems Directorate,
Yuma Proving Ground

WHY SHOULD YOU PARTNER WITH US IN 2026?

Demonstrate your expertise and capabilities to an audience of key decision makers from across the indirect fires community **through thought leadership.**

Gain **insights from US Army leaders** on recent announcements regarding the **Self-Propelled Howitzer Modernization**

Position **your brand as a market leader** to senior figures from the military and industry

Network with leaders from across the indirect fires community including, Military, Academia, and Industry

“Great opportunity to update on requirements, programs and people across a very large spectrum.”

– Senior Advisor to the CEO, KNDS

“Well organized and executed event. Great selection of speakers, presenters and panelists.”

– Liaison Engineer, German Liaison Office for Defense Materiel USA/ CAN (Bundeswehr)

“It was key to have so many Army key leaders and army civilians in attendance. Made networking valuable.”

– Director, Army Solutions, Castelion

“Excellent cross-section of government and industry leaders in an intimate, approachable forum.”

– President, Cherrill Consulting Group
