ADVANCING GLOBAL SUPPLY CHAINS. TOGETHER.

LogiPharma has been the premiere event for pharma, biotech, and medtech supply chain executives in North America since its inception in 2002 and provides an exceptional opportunity for innovators in the industry to learn, benchmark, and share their best practices with peers in a highly interactive format. By bringing together heads of supply chain on both the manufacturing and provider sides, LogiPharma aims to promote deeper collaboration among industry players, leading to more effective and efficient supply chain management.

You'll engage in interactive sessions and workshops that focus on identifying best practices to improve their end-to-end supply chain, better serve customers, and minimize costs in the ever-changing healthcare environment. You'll have firsthand access to invaluable insights from over 200 global supply chain leaders in pharma, biotech, and medtech, and return to the office with clearly-defined strategies to build a resilient supply chain.

LogiPharma is a must-attend event for any supply chain executive in the pharmaceutical industry to stay up-to-date with the latest industry trends, enhance your knowledge, and build valuable relationships with peers in the field. Get ready to transform your organization to thrive in the ever-changing landscape of the pharmaceutical industry.

WHY LOGIPHARMA IS RATED #1

These forward-looking leaders will share lessons learned from the past year and inspire new ways for you to deliver future growth.

An Agenda Made For You, By You

The LogiPharma agenda is 100% focused on delivering high quality content that addresses your biggest challenges and uncovering hidden opportunities. With a variety of session formats including informative keynotes, intimate roundtables and boardrooms, you'll leave with tons of actionable strategies to help you optimize your supply chain. With content on the topics you care about most, you'll connect with leaders who are focused on having the same, critical conversations as yourself.

Take The Work Out Of Networking

LogiPharma is the most interactive conference for pharmaceutical supply chain innovators to date. 20+ hours of networking are sewn into the fabric of the LogiPharma experience. Make, build, and strengthen your relationships across the industry through workshops, receptions, discussion groups, and breakouts. Our action-packed agenda is designed to facilitate meaningful in-person interactions. Forge real connections over 3 days of interactive learning and relationship building.
