## SPONSORSHIP & EXHIBITION GUIDE

18 - 21 November 2025

Singapore

# ABOUT RESPONSIBLE AI SUMMIT

Governments across Asia are actively shaping policies to ensure responsible AI development and deployment. Enterprises across the region who operate across various countries face complex compliance landscapes with Asia's diverse and upcoming regulations.

Alongside the rise of global AI regulations, organisations need robust governance frameworks to mitigate risks and ensure responsible deployment as AI adoption accelerates across industries. Enterprises require strategies for managing model risks, minimizing failures, and embedding governance to drive responsible AI innovation.

**Responsible AI Summit Asia 2025** brings together leading executives, AI strategists, compliance officers, and innovation leaders from the region's Fortune 500 companies and enterprise functions—including risk management, legal, technology, and ethics—to collaborate on embedding responsible AI practices, navigate emerging regulations, and drive sustainable, trustworthy AI innovation.

## KEY THEMES

Charting the Future: AI Regulations in Southeast Asia Uncovered

Safeguarding the Future: Ethics & Risk in Generative AI

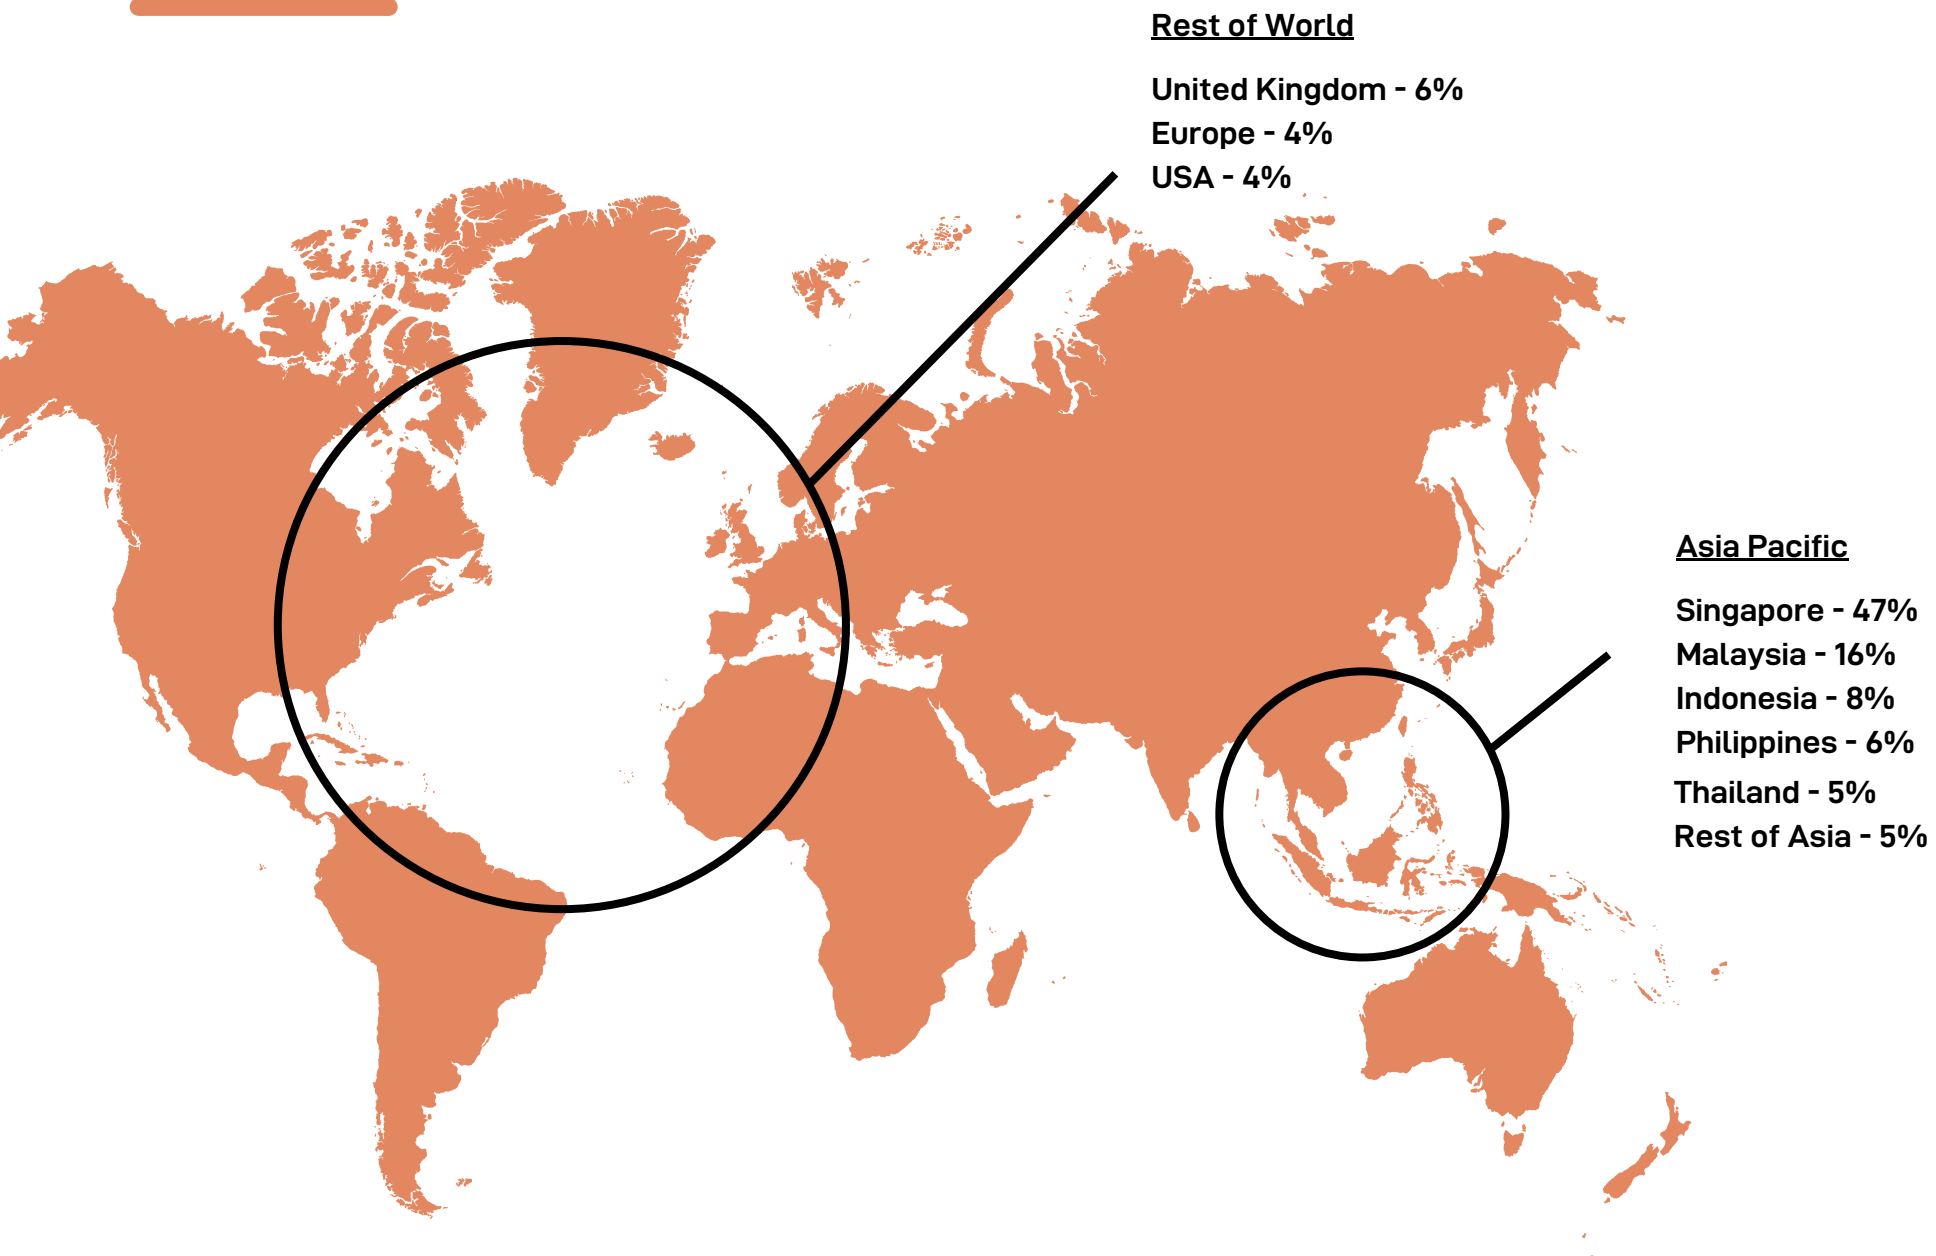

Governance That Guides: Laying the Groundwork for Responsible AI

Humans & Machines: Thriving Together in the Age of AI
