The future of healthcare!

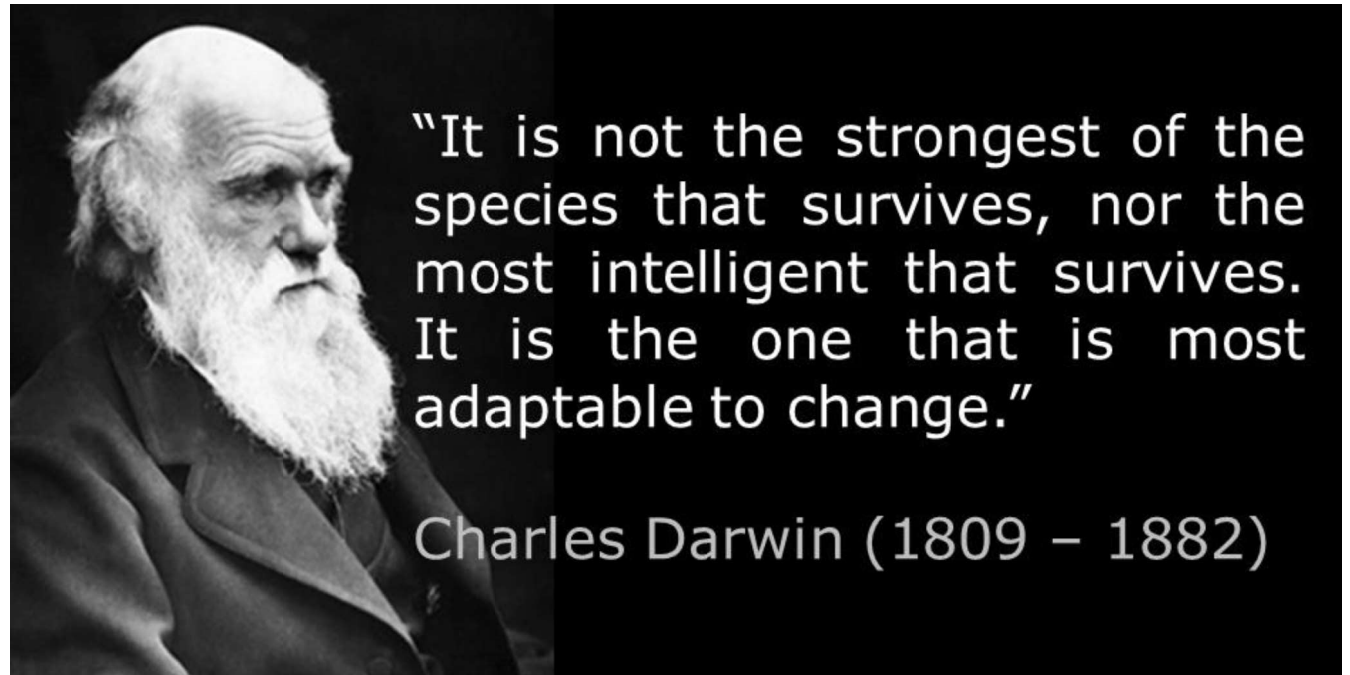

**"Frankly, you are so far sighted
that you can see the future of healthcare."**

Overview

- Designing a health system that is future ready
- What current trends may inform the future of the health care system
- How a health system can plan for the future
- Where to from here

Designing a
healthcare
system that
is future
ready

"It is not the strongest of the species that survives, nor the most intelligent that survives. It is the one that is most adaptable to change."

Charles Darwin (1809 – 1882)

Designing a healthcare system that is future ready

- Healthcare trends
