

WORLD OFFSHORE WEEK

**THE #1 MEETING PLACE FOR
THE OIL, ENERGY, &
MARINE SECTOR**

**16 - 17 SEPTEMBER 2025
SINGAPORE | SINGAPORE EXPO**

2500+
Attendees

70+
Distinguished
Industry Speakers

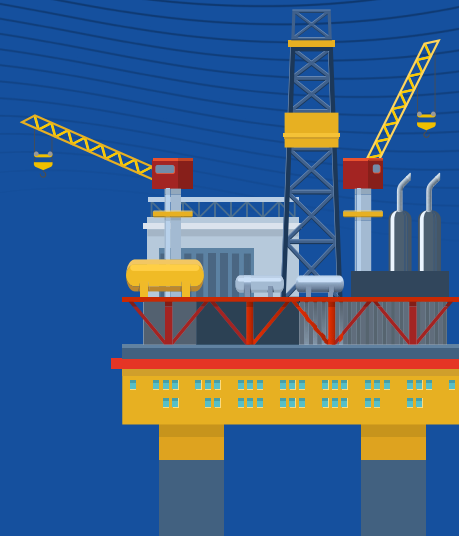

100+
Exhibitors

42+
Countries
Represented

ALL ABOUT WORLD OFFSHORE WEEK

The #1 mega show bringing together all industry stakeholders impacting the offshore oil, energy, & marine sector. As the industry advances with complex challenges and demands for efficiency, selecting the right partners and technologies has never been more critical. At World Offshore Week, draw insights from industry experts and leaders and meet the best-in-class vendors with cutting-edge solutions to empower the energy industry.

With 6 hot topics under 1 roof tackling the most critical challenges, join us at World Offshore Week for two action-packed days of comprehensive content, the latest technology showcase and inspirational takeaways!

6 SPECIAL FOCUSED THEATRES - LIMITED COMPLIMENTARY SEATS

16 - 17 September 2025

A Focus on Deepwater Drilling Engineering and Subsea Engineering

16 - 17 September 2025

Lowering Emissions and Driving Renewable Energy Methodologies

16 - 17 September 2025

Leveraging on Floating Wind Opportunities and Improved Technology

16 - 17 September 2025

Digitalising Offshore Operations to Enhance Efficiency, Safety, & Sustainability

16 September 2025

Enhancing Safety and Efficiency in Marine and Offshore Operations

17 September 2025

Future Proofing Offshore Supply Chain Resilience to Combat Uncertainties

SESSIONS AT A GLANCE – DAY ONE

WEDNESDAY, 16 SEPTEMBER 2025

The FPSO World Congress is the world's leading FPSO-focused gathering; bringing together Oil Producers, FPSO Contractors, EPCs, Shipyards, Sub-Contractors, Solution Providers and more. This industry-leading platform is the focal point for the industry to discuss best practices and latest solutions in strengthening the future of FPSOs along the industry's transformative roadmap to sustainability and renewable energy. *This session requires paid ticket access.	Decarbonisation Pathways for the Oil & Gas Industry	Designing High-Quality Front-End Engineering and Pre-Feed Designs	Digital Transformation in Offshore Oil & Gas: Trends and Outlook	Reviewing Hotspots and Opportunities for Offshore Wind Projects in Asia	Renewable Energy Offshore Facilities: Challenges and Opportunities
	Drilling Towards a Sustainable Future: Velesto's Decarbonization Journey	Leveraging Operational Data & Engineering Processes to Improve the Reliability of Operational Facilities	Role of Digitalisation in Energy Transition	The Rising Relevance of Offshore Wind Projects Amidst Growing Emphasis on Renewable Energy	Optimising Offshore Facility Performance
	Driving Decarbonization in Power Generation through Innovation: Vision for a Sustainable Energy Future	Key Challenges in Offshore Commissioning and How to Address Them	Navigating Challenges in Digitalisation for Offshore Oil and Gas Operations	Addressing Challenges for Offshore Wind Projects in the APAC Region	Offshore Facility Upgrades and Modifications
	Decarbonising Indonesia's Power Grid by 2060 through CCUS & Renewable Energy Mix	Advancing FPSO Engineering Processes to Maximise Oil Production	Successful Implementation of Offshore Digital Oil & Gas	Navigating Critical Challenges for Successful and Commercially Viable Offshore Wind Projects	Offshore Accommodation and Living Quarters
	Decarbonising Power Generation: Renewables & Grid Integration	Best Practices for Offshore Vessel Engineering & Commissioning	Optimising Offshore Production and Reservoir Management	Scaling Floating Offshore Wind Farm Operations in the APAC Region	Human Capital and Workforce Management in Offshore Operations
	Streamlining LNG Infrastructure: FLNG & FSRU's Role in Delivering Clean Energy Solution	Analysing the Modern Automation Approach in Vessel Design Facilities	Enhancing Offshore Safety and Asset Integrity through Digital Solutions	Exploring Innovative Technologies and Designs for Offshore Wind Farms	Safety, Emergency Response, and Health Management

SESSIONS AT A GLANCE – DAY TWO

THURSDAY, 17 SEPTEMBER 2025

The FPSO World Congress is the world's leading FPSO-focused gathering; bringing together Oil Producers, FPSO Contractors, EPCs, Shipyards, Sub-Contractors, Solution Providers and more. This industry-leading platform is the focal point for the industry to discuss best practices and latest solutions in strengthening the future of FPSOs along the industry's transformative roadmap to sustainability and renewable energy. *This session requires paid ticket access.	The Transition to Low-Carbon Fuels in the Marine Industry	Enhancing Maintenance Engineering Practices in Offshore Assets	IoT and Connectivity in Offshore Environments	Assessing Technologies and Designs to Manage Risks for Offshore Wind Farms	Navigating the Future of Offshore Supply Chain and Procurement
	Accelerating the Green Shipping Transition	Exploring Advanced Offshore Drilling Engineering Techniques	Challenges and Solutions in Offshore Connectivity	Implementing Standardisation and Modularisation Strategies for Offshore Wind Farms	Understanding Critical Success Factors for Yard and Vendor Selection
	Anchoring Sustainability: Building a Decarbonised Future Through a Responsible Floating Wind Supply Chain	Innovations and Best Practices for Advanced Offshore Safety Assessment Techniques	Remote Monitoring and Digitalisation on Offshore Facilities	Exploring Innovative Technologies and Turbine Designs for Offshore Wind Farms	Exposing Supply Chain and Procurement Challenges the Industry Must Overcome
	Successful Simultaneous Methanol Bunkering and Cargo Operation at Tuas Port	Engineering Best Practices for Offshore Support Vessels	Data Management and Integration in Offshore Operations	Leveraging Digital Twins and Remote Monitoring Tools for Efficient Offshore Wind Farm Operations	Collaborating with Vendors and Ensuring Best Practices
	Innovating for Reliable Renewables: EDP Renewables' Approach to Energy Storage and Grid Integration	New-Age Practices in FLNG Engineering to Boost Operations	Cybersecurity and Digital Risk Management in Offshore Operations	From Concept to Implementation: Establishing Floating Offshore Wind Operations	Overcoming Procurement Challenges in the Offshore Oil and Gas Industry
	Financing Decarbonisation in the Offshore Sector: Challenges & Opportunities	Building Robust Risk Management Practices in Engineering and Commissioning	Data Security and Cybersecurity	Developing Practical Solutions for Floating Offshore Wind	Implementing a Robust Warehouse Management System for Offshore Operations

WHAT CAN YOU EXPECT IN 2025?

2500+
Attendees

100
Exhibitors

70+
Distinguished
Industry Speakers

42+
Countries
Represented

1
Exhibition Hall

WHO WILL ATTEND?

OIL & GAS PRODUCERS

- Supply Chain
- Engineering & Commissioning
- Offshore Projects
- Category Manager
- Procurement & Contracting
- Field Development
- Upstream
- IT, Technology & Digital
- Human Resources
- Health, Safety & Environment
- Facilities

OFFSHORE WIND

- Operators
- Operations
- Projects
- Development

EPC CONTRACTORS & SHIPYARDS

- Maintenance
- Operations
- Engineering & Commissioning
- Offshore
- Vessel Support
- Construction Design & Build

OFFSHORE PLATFORMS, RIGS & FLOATING VESSELS

- Instrument & Control
- Procurement & Contracting
- Engineering & Commissioning
- Supply Chain
- Naval Architects
- Project & Development
- Operations
- IT, Technology & Digital
- Human Resources
- Health, Safety & Environment
- Facilities
- Operations
- Offshore Installation Manager

OFFSHORE IT/ TECHNOLOGY

- IT/Technology
- SCADA
- Industrial Control Systems (ICS)
- Digital
- Operations
- Cyber Security
- Control Room

OFFSHORE LNG

- Operators
- Operations
- Projects
- Bunkering
- Development
- Commercial & Trading

SHIPPING & MARITIME

- Ship Owners
- Shipping Companies
- Port & Terminal Operators
- Government Agencies
- Fuel Suppliers

**WORLD
OFFSHORE
WEEK**

WORLD OFFSHORE WEEK THEATRES

16 - 17 September 2025

The industry anticipates that vessel deployments will rise significantly over the next five years to cater to the heightened demand for oil. This has pivoted the focus of industry to ensure they are maximising production by building vessels that have an optimal design parameter to boost vessels' engineering processes, low cost and digitalising processes to increase operational effectiveness, safety engineering and managing re-deployment of vessels. Offshore Engineering & Commissioning will gather top engineering, commissioning, instrument & control, facility & vessel design experts from the industry to discuss best practices in boosting engineering processes to improve operational performance, process and system optimisation, onboard safety management and extending the shelf life of vessels.

Who is this for?

- Engineering
- Commissioning
- Instrumentation & Control

16 - 17 September 2025

According to industry reports, digital technologies can improve upstream operational efficiency by up to 20% and reduce operational costs by up to 15%. In addition, remote operations powered by technology are expected to reduce offshore manning by up to 30%. Offshore Digital Oil, Energy & Marine refers to the application of digital technologies and data-driven solutions in the exploration, production, and operation of oil and gas assets located in offshore environments, such as deepwater drilling platforms, floating production systems, and subsea installations. Offshore Digital Oil, Energy & Marine will gather top IT, Technology, Information, Digital and Operations leaders from the industry to discuss best practices in digitalising offshore oil and gas operations aims to enhance efficiency, safety, sustainability, and decision-making across the entire asset lifecycle.

Who is this for?

- IT & Information Systems
- Technology & Digital
- Operations

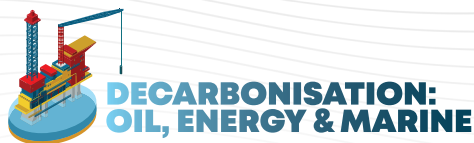

16 - 17 September 2025

The global offshore wind industry is experiencing rapid growth, driven by increasing energy demand, climate change concerns, and supportive government policies. With a global installed capacity of over 120 GW, the sector is poised to play a pivotal role in the energy transition. Significant investments totalling approximately USD 150 billion in 2022 have fuelled the development of large-scale offshore wind farms. Technological advancements have led to a 35% reduction in the levelised cost of energy (LCOE) over the past decade, making offshore wind increasingly competitive. Offshore Wind will bring Power & Utility, Oil & Gas, Renewable Energy, Power Producers, Wind Farm Operators, Wind Turbines, EPCs, Shipyards together to explore the potential growth of offshore wind, develop a roadmap to speed up the development of offshore wind farms, identify the drivers of offshore wind growth and discussing the cost involved in building offshore wind farms.

Who is this for?

- Offshore Wind Farm Operators
- Floating Wind Operators
- Offshore/Floating Wind Projects Development/Operations

WORLD OFFSHORE WEEK THEATRES

16 - 17 September 2025

Marine activity for nearly 6% of global greenhouse gas emissions. With increasing pressure from international regulations and the need to mitigate climate change, the industry must adopt cleaner technologies and sustainable fuels. This shift not only ensures compliance with evolving standards but also drives innovation and long-term operational efficiency in maritime logistics. Decarbonisation: Oil, Energy & Marine will bring together industry leaders and technology providers to accelerate the transition to a low-carbon future.

Who is this for?

- Oil & Gas, Energy, Shipping
- Ship Owners & Operators
- Port & Terminal Operators
- Government Agencies
- Fuel Suppliers

THE #1 MEETING PLACE FOR THE OFFSHORE ENERGY, OIL & GAS SECTOR

16 September 2025

Offshore Crewing & Manning refers to the human resources management and infrastructure required to support various activities in the offshore industry – which often take place in remote offshore locations. The effective management of manpower, accommodation, safety, and logistics is crucial to ensure smooth and safe offshore operations. Offshore Crewing & Manning will bring the industry's leading stakeholders together to explore best practices in ensuring the smooth and safe operation of offshore installations, supporting the offshore sector in harnessing energy resources and maintaining sustainable operations in challenging marine environments.

Who is this for?

- Facilities Manager/Superintendent
- Offshore Installation Manager
- Human Resources
- Health, Safety & Environment

17 September 2025

Rising demand for energy across the globe has driven project needs higher than before. What does this mean for supply chain and procurement leaders? A massive increase in projects has led to reduced yard capacity around the world. This has led to complexities in vendor management: supply chain leaders are trying to work with vendors to ensure that goals and missions are aligned. Offshore Supply Chain & Procurement will bring the industry's leading stakeholders together to explore the immense opportunities in the market and discuss best practices and strategies to tackle these challenges and create resilient supply chains.

Who is this for?

- Supply Chain
- Procurement
- Contracting

08:15	Registration Opens				
08:50	Welcome Address by World Offshore Week <i>World Offshore Week is the #1 meeting place for the oil, energy and maritime industry. During this session, we welcome everyone to this industry gathering, from across our FPSO World Congress and Theatres</i>				
08:55	Opening Remarks by Chairperson Tony Hodgkins , Director, Crondall Energy				
09:00	<u>The Role of Maritime Gateways in Powering the Future Offshore Energy Ecosystem</u> New Wei Siang , Director (Decarbonisation & Net-Zero Pathways), Maritime and Port Authority of Singapore				
09:30	<u>Advancing Offshore Operations with Process Simulation</u> Oriol Millan , Chief Executive Officer, InProcess				
10:00	Theatre Programs Open				
					
10:10 – 10:40	<u>Drilling Towards a Sustainable Future: Velesto's Decarbonization Journey</u> Andrew Dana Wesley , Head of Sustainability, Velesto Energy	<u>The Role of Offshore Wind in a Clean Energy Future</u> Nizar Damree , Head of Business Development – Renewables, Equinor	Networking Break Take a break and use this time to network with your fellow industry peers at our Exhibition Hall!	<u>Digital Transformation of Offshore Operations: Challenges & Opportunities</u> Mohit Mehrotra , COO Oil and Gas Tanker Management, Kmarin	Networking Break Take a break and use this time to network with your fellow industry peers at our Exhibition Hall!
10:40 – 11:10	<u>Securing Remote Operations: Embracing Cyber Resilience with Managed Hybrid Networks</u> <i>(Head over to Offshore Digital: Oil, Energy, & Marine Theatre)</i> Yag Rajendran , VP Energy APAC & UK, Marlink Christabel Pereira , Cyber Security Specialist, Marlink				
11:10 – 11:40	<u>Accelerating the Green Shipping Transition</u> Ashutosh Kumar , General Manager – Carbon Solutions (A), MOL (Asia Oceania) Pte Singapore	Networking Break Take a break and use this time to network with your fellow industry peers at our Exhibition Hall!	<u>Sustainability and Decarbonisation in Deepwater Drilling</u> Fata Yunus , Vice President Drilling & Well intervention, PT Pertamina	<u>Digitalisation and Innovation in Offshore Exploration & Production</u> Abdel Aziz Hussein , Technical Professional, Petronas	<u>Enhancing Safety & Operational Excellence on Offshore Platforms</u> Htoo Htoo Kyaw (Harvey) , Technical Safety Engineer, Seatrium
11:40 – 12:10	<u>Industry Thought Leadership</u> <i>(Head on over to Offshore Engineering Theatre)</i> Senior Representative, Jumbo Maritime				

Tuesday, 16 September 2025

	 DECARBONISATION: OIL, ENERGY & MARINE	 OFFSHORE WIND	 OFFSHORE ENGINEERING	 OFFSHORE DIGITAL OIL, ENERGY & MARINE	 OFFSHORE CREWING & MANNING
12.10 – 12.50	Networking Break Take a break and use this time to network with your fellow industry peers at our Exhibition Hall!	<u>Floating Offshore Wind: Unleashing Global Potential</u> Harrison Waugh , Package Manager, Corio Generation	<u>Advanced Drilling Technologies for Deepwater Environments</u> Kent Seng Lim , Operations Support Engineer, Valaris	Networking Break Take a break and use this time to network with your fellow industry peers at our Exhibition Hall!	<u>Leveraging Technology for Operational Efficiency: Enhancing Equipment Management, Performance, and Cost Strategies</u> Rahie Masoom Bali , EMR Strategy and Transformation Manager, Maersk
12:50 – 13.20	<u>Fireside Chat: Driving Decarbonization in Power Generation through Innovation: Vision for a Sustainable Energy Future</u> Shunta (Sam) Kijima , Senior General Manager, Strategy (Decarbonization), JERA Asia Pte.Ltd Mohit Sharma , Senior Vice President – Technical, Marubeni Corporation (Singapore) Khairun Suffia Sulaiman , Market Intelligence Manager (APAC), EIC (Energy Industries Council)	<u>Fireside Chat Innovation in Offshore Wind Technology: Next-Generation Solutions</u>	Networking Break Take a break and use this time to network with your fellow industry peers at our Exhibition Hall!	<u>Leveraging Technology for Operational Efficiency: Enhancing Equipment Management, Performance, and Cost Strategies</u> Senior Representative, EDP Renewables	<u>Tackling Offshore Assets in the Region</u> Nhakhorn Somchit , Vice President QHSE, Sapura Energy Berhad
13:20 – 13.50	Remote Operations: Journey Towards Achieving Operational Excellence (<i>Head over to Offshore Digital: Oil, Energy, & Marine Theatre</i>) Shardul Sirsamkar , Global Marketing Leader - Upstream O&G, Honeywell				
13:50 – 14.30	<u>Decarbonising Indonesia's Power Grid</u>	Networking Break Take a break and use this time to network with your fellow	<u>Engineering the Wells of the Future: Safety, Sustainability, and Digital Transformation</u>	<u>Enhancing FPSO Safety with Digital Twin Technology</u> Senior Representative, Seatrium	Networking Break Take a break and use this time to network with your

	<u>by 2060 through CCUS & Renewable Energy Mix</u> Herry Nico Siagian, Portfolio Manager, PT PLN (Indonesia)	industry peers at our Exhibition Hall!	Thomas Gautherot, Vice President Drilling & Wells, TotalEnergies		fellow industry peers at our Exhibition Hall!
14:30 – 15:00	<u>Streamlining LNG Infrastructure: FLNG & FSRU's Role in Delivering Clean Energy Solution</u> Himanshu Singh, Technical Manager – APAC, Excelerate Energy	<u>Innovative Solutions for Offshore Wind Construction & Installation</u> Supa Waisayarat, Country Director, Vietnam, Super Energy Corporation (Major player in Vietnam with two projects in development and one 50MW already in operations)	<u>The Future of Deepwater Drilling: Emerging Technologies and Trends</u> Bart McElwee, Principal Project Engineer, Cameron LNG	<u>Optimising IT Implementation and Maintenance for Tanker Operations</u> Sunil Anand Roy, Senior Vessel Manager, OSM Thome Group	<u>Optimising Offshore Workforce Management</u> Agnes Sulit-Enesio, Vice President – Crewing Operations, Odfjell Philippines Inc.
15:00 – 15:30	<u>Fireside Chat: Integrating Innovation & Sustainability: Technology's Role in Decarbonising Operations</u> Himanshu Singh, Technical Manager – APAC, Excelerate Energy Herry Nico Siagian, Portfolio Manager, PT PLN (Indonesia)	<u>Foundations and Substructures for Offshore Wind Farms</u> Marcus Andre Ong, Co-Country Manager, Gurin Energy (Reserved)		<u>Unlocking Offshore Efficiency Through Digital Innovation</u>	<u>Bridging the Skills Gap: Strategic Workforce Planning for a New Era</u> Capt. Abhay Kumar, Head of Project Logistics HSE, Asia Pacific (Global Corporate), Kuehne+Nagel
15:30	Chairperson's Closing Remarks				
16:00	Day 1 Prize Giveaway & Lucky Draw Visit our Exhibition Hall, learn more about partners of the World Offshore Week and you stand a chance to win prizes proudly sponsored by our partners!				

Wednesday, 17 September 2025

09:00	Morning Refreshments & Registration				
09:30	Welcome Address by World Offshore Week				
09:35	Opening Remarks by Chairperson				
					
09:40 – 10:20	Networking Break Take a break and use this time to network with your fellow industry peers at our Exhibition Hall!	Offshore Wind and Energy Storage: Enabling a Reliable and Sustainable Grid Edgar Peter Dabbi, Lead Metocean Engineer, Orsted (Reserved)	Decarbonisation in Drilling Noorazmah Yusoff, Head of Drilling and Engineering, Petronas	Digitalisation and the Energy Transition: Preparing for the Future Fadil Dzulfihar, IT Specialist, Eni	Adaptive Supply Chains: Strengthening Supplier Relationships Through Trust and Flexibility Russell Connolly, Supply Chain Lead, Noble Corporation
10:20 – 11:00	Fireside Chat: The Transition to Low-Carbon Fuels in the Marine Industry Jerid Soo, Assistant General Manager (Global Sustainability and ESG), Pacific International Lines Manish Jain, Chief Operating Officer, WOMAR Logistics Pte Ltd	Grid Integration of Offshore Wind: Challenges and Solutions	Decarbonisation in Drilling	Digital Offshore: Strengthening Infrastructure and Cybersecurity in Offshore Operations Jaya Prakash, Technical Officer, YTL Power Seraya	Strategic Partnerships: Building Strong Supplier Relationships Shweta Singh, Contract Logistics Procurement Team Manager, A.P. Moller – Maersk
11:00 – 11:30	Fireside Chat: Decarbonisation Pathways for the Offshore Industry	Networking Break Take a break and use this time to network with your fellow industry peers at our Exhibition Hall!	Networking Break Take a break and use this time to network with your fellow industry peers at our Exhibition Hall!	Unlocking Value with Cloud Services in Oil and Gas Operations Yadanarshwe Sone, Technical Advisor, Marubeni Corporation	Networking Break Take a break and use this time to network with your fellow industry peers at our Exhibition Hall!
11:30 – 12:10	Networking Break Take a break and use this time to network with your fellow industry peers at our Exhibition Hall!	Digital Technologies for Offshore Wind Operations & Maintenance Ayush Goel, Offshore Wind Electrical Engineer, Shell	Advanced Subsea Robotics and Automation	Networking Break Take a break and use this time to network with your fellow industry peers at our Exhibition Hall!	Project Management & Procurement: Delivering Offshore Projects on Time and Budget Vernice Tan, Senior Sourcing Manager, Orsted
12:10 – 12:50	Fireside Chat: Alternative Marine Fuels & Supply Chains: Beyond the Vessel Pankaj Porwal, General Manager, Project & Fleet Sustainability, Hafnia	Offshore Wind Supply Chain: Building a Robust and Sustainable Ecosystem	Subsea Well Intervention and Workover Murphy McColl, Senior Project Engineer, MMA Offshore Limited	Advancing Offshore Operations Through Innovation and Data Erwin Bayu Aji, Information Technology Manager, KS Orka Renewables	Data-Driven Decisions: Optimising Offshore Sourcing, Warehousing, and Procurement through Analytics

	Justin Tan , Trading Manager, Marine Fuels, Pertamina International Marketing & Distribution Pte. Ltd.				Raveena Chakrapani , Supply Chain Data Analyst, A.P. Moller – Maersk
12:50 – 13:30	<u>Building Talent for Decarbonisation: The Human Role in Adopting New Marine Fuels Study</u> Capt Mohd Salleh Ahmad Sarwan , Senior Specialist, Singapore Maritime Academy, Singapore Polytechnic	Networking Break Take a break and use this time to network with your fellow industry peers at our Exhibition Hall!	Networking Break Take a break and use this time to network with your fellow industry peers at our Exhibition Hall!	<u>The Role of Artificial Intelligence (AI) in Offshore Operations</u> Harshielawati Hanim , Upstream Technology Digital and Innovation, Petronas	Networking Break Take a break and use this time to network with your fellow industry peers at our Exhibition Hall!
13:30 – 14:10	<u>ESG in Action: Digitising and Decarbonising the Maritime Supply Chain</u> Chen Yiping , Sustainability Manager, K-Line Ptd Ltd.	<u>Unlocking Deepwater Potential with Floating Offshore Wind Farms</u>	<u>Subsea Construction and Installation</u>	<u>The Future of Digital in Offshore: Emerging Trends and Disruptive Technologies</u> Akbar Alhas , Digital Adoption Manager, Petronas	<u>Navigating Compliance: Risk Management in the Offshore Sector</u>
14:10 – 14:40	Networking Break Take a break and use this time to network with your fellow industry peers at our Exhibition Hall!	<u>The Future of Offshore Wind: Trends and Predictions</u>	<u>Subsea Flow Assurance</u>	Networking Break Take a break and use this time to network with your fellow industry peers at our Exhibition Hall!	<u>Adaptive Supply Chains: Strengthening Supplier Relationships Through Trust and Flexibility</u>
14:40 – 15:20	<u>Strengthening Water Innovation & Coastal Resilience: Insights from Singapore Water Association</u> Managing Director, Singapore Water Association		<u>Fireside Chat: Subsea Flow Assurance</u>	<u>Accelerating Digital Transformation Through People, Process, and Technology</u> Azizi Rashdi , Business Reset, Digital Transformation, Sapura Energy Berhard	
15:20 – 16:00	<u>Financing Decarbonisation in the Offshore Sector: Challenges & Opportunities</u> Steve Ji , Business & Finance Specialist, Standard Chartered Stephan Vetter , Vice President Maritime Debt Origination and Structuring APAC, KfW IPEX-Bank				
16:00	Chairperson's Closing Remarks				
16:00	Day 1 Prize Giveaway & Lucky Draw Visit our Exhibition Hall, learn more about partners of the FPSO World Congress and you stand a chance to win prizes proudly sponsored by our partners!				

WANT TO GAIN MORE FROM WORLD OFFSHORE WEEK?

REGISTER FOR OUR MAIN STAGE PREMIUM CONFERENCE – FPSO WORLD CONGRESS NOW!
(Paid Ticketed Access Only)

Two decades ago, we launched FPSO World Congress to connect the offshore oil & gas industry together. Our aim was to bring together key stakeholders involved in FSO / FPSO / FLNG / FSRU projects around the world. Since then, the congress has established itself as the bridge between floating vessel operators, oil & gas producers, and offshore solution providers as we welcomed over thousands of delegates from countries all over the world. It is an enormous privilege to reach this milestone – and we haven't done it alone. FPSO World Congress is what it is today because of our community: our network, our partners, and most importantly, all our supportive partners and delegates like yourself who challenge us to keep innovating.

Today's Conversations on FPSOs

is all about Embracing Net-Zero, Energy Efficiency & Optimising Production. Join us as we bring FPSO stakeholders together in one platform to explore cutting-edge technologies and visionary strategies that shape the future of FPSOs in the renewable energy era.
