Why Everyone's Raving About eTail

Created by retailers, for retailers. eTail is the one-stop shop for eCommerce and multi channel executives; an event where inspiration meets socializing, an incubator for innovation and relationships that last far beyond the conference. We have tons of new session formats to give you plenty of take-aways, a new day entirely focused on the future of retail, and guest speakers discussing current and future technology trends.

Guest Speakers:

Our new guest speaker is Jason Pontin, editor in chief and publisher of MIT Technology Review (the world's oldest and most respected technology magazine). Jason will explain how smart phones, mobile payment systems like Apple Pay, in combination with beacons inside stores and big data are creating all kinds of new consumer expectations. So adapt or fail. It's your choice.

Inspiration From Retailers Who Set The Bar For Innovation

With keynote speakers such as the **President of Target.com**, the **President of Overstock.com** and the **SVP International at Gilt Groupe** – learn how traditional retailers are executing successfully in all channels, despite the Amazons of the world. As a bonus - you can attend both high impact presentations and panels, as well as collaborative working group sessions and retailer-only chats. You're guaranteed to leave with more action items than ever.

Focus on The Next Generation of Retail

Ready for even more inspiration? Learn how retail's trendsetters are growing, transforming the industry and disrupting businesses. From well known brands such as Alex + Ani to award-winning innovators like Pirch, they're all here and are ready to share. The future of retail is now - and it's time for you to capitalize on it.

“ eTail East was one of the best eCommerce conferences that I have attended in the last decade. It was well organized and the speakers were excellent. A wide range of topics were covered, which provided significant opportunity to bring back great ideas that will produce positive results.

James Fredley, Director of eCommerce/Technology, **Diet Direct**

Transforming Retail

We'll focus on: transformations and innovations in the industry, digital engagement strategies, personalization, the customer journey, online marketing, data, mobile, social, email, search, usability and more – if you have a pain point, we've definitely got you covered. From companies like Sears, HSN, Home Depot, Limited Brands, Staples, and many more, you'll end up with pages of notes from those who are transforming the industry.

“

eTail is a big opportunity. It allows you and your brand to shine. It's the most engaged community of online retail experts. They come together to explore the industry's most important issues and shape how it evolves.

Rose Hamilton, EVP & CMO, [Pet360](#)

Together

Where else can you get the networking you'll find at eTail? Nowhere. You can choose from ten different interactive working groups, multiple retailer-only meet-ups, and a chance to connect one on one at the end of each day. Continue the learning and conversations beyond the event.

Here's a look at exactly how we do this at eTail East:

Retailer-Only Speed "Dating"

Think speed dating, without the actual date! This fun session lets you meet a load of new and interesting people before the main conference kicks off. The best part? You'll have a few minutes of conversation with everyone in the room, so be prepared to make a lot of new friends. Bring your business cards—you'll need them. This session is retailer-only.

Voice Your Opinion! Interactive Working Groups

Want an alternative to standard PPT presentations? These are for you. A mix of presentation and audience-run working groups, you'll be a main part of the discussion. Topics covered include content marketing, eCommerce tips, social selling and more. Break into small working groups, collaborate to hash out answers, and voice your opinion throughout the session.

Retailer-Only Meet-Ups

Head to the social lounges in the exhibition hall. Here you'll mix it up with peers who can give you free advice in omnichannel, mobile, testing, conversion optimization and much more. Happening almost every hour throughout the day on August 11th, 12th and 13th, this is your chance to have face time and problem solve. You'll get free advice you simply cannot get anywhere else! These sessions are retailer-only.

Together

The Moshpit of eCommerce Experts: The Future of eCommerce

This is the most fun - and learning - you may have at the conference. Led by digital masters, you'll be in a fun, fast paced, gameshow-like session where the audience (that means you) share what works in eCommerce. A mix of lightning round game show, audience participation and quick witted MCs create a rare combination of laughter and learning.

Beer & Wine Retailer-Only Chats

Relax with a cold beer or a glass of wine during our casual get-togethers at the end of the day. These sessions are great to not only mingle with fellow retailers, but get real solutions you can share with your office. Topics covered include expanding your social reach, SEO, the do's and don'ts of shipping and much more. These sessions are retailer-only.

Women In (R)eTail Cocktail Hour

If you're a female eCommerce executive, make sure you join us on August 12th for this special cocktail hour. You'll meet other dynamic females attending the conference (both seasoned and new). Cultivate new friendships and focus on your personal development, all in great company. This is one of our most popular sessions at the show - don't miss out! This session is retailer-only.

...And Have Fun Doing it!

During the conference you can join competitions to win cash, the latest tech prizes (a free Apple Watch, anyone?), or an exotic expenses-paid vacation.

And in the evenings our receptions are infamous for fun, laughter and all around good times! Play awesome games, see surprise entertainers, maybe a little break dancing... yep, it all goes down at eTail East.

Prizes & Giveaways Every Day of The Conference

Everyone loves free stuff, and we love to give it away! Head to the Exhibit Hall and check out the latest retail technologies, grab a drink, and you can play games to win the latest gadgets (or cash)! You'll have the chance to win something fantastic during every break on August 11th and 12th!

A woman with short dark hair, wearing a black suit jacket and a white shirt, is smiling and holding a large, pale yellow snake. She is standing in a dimly lit room with other people in the background.

Our Infamous Evening Receptions

Every night we'll have mixologists on tap for our legendary evening receptions. Get out of the hotel and see a bit of Boston. Taste some wine, have great food, perhaps see a snake charmer or two! These are the perfect moments to get involved in some informal networking, fun and laughter.

An Exhibit Hall That Does Much More Than Exhibit

Mix it up with other retailers at our Social Lounges, located only in the Exhibit Hall. Enjoy retailer-only meet-ups, group discussions, virtual games and much more. We'll also have specialty cocktails and food... you could probably spend the entire day lounging and networking!

How Content Marketing Can Enrich Your Email Marketing Efforts

As consumers, we often don't think about what channels (email, social media, content, etc.) are giving us what. We simply know what brands provide what we are looking for. Some brands are purely offer driven. Other brands are engagement-based. The best brands will deliver a great experience from beginning to end. As most brands are quick to drive a sale as their primary motive, including valuable rich content is often overlooked in email marketing strategies. Email isn't just about driving sales. It's about building a relationship with your customer and content marketing can help do that. You'll hear how in this session.

How much does mobile mean to your business? There's a lot of money left on the table if you can't convert mobile customers. Get a holistic view of not only how to increase conversions, but design personalized experiences that ring in the sales. As a bonus, you'll hear brand and customer service stories that will inspire you to make a change.

KEYNOTE: Designing a Complete User Experience: The Sum Should Be Greater Than The Parts

Many companies say, "Mobile first," but few companies actually walk that walk. Those of us that begin in the desktop browser world have to think differently. You have to think about how responsive design on mobile and tablets, and mobile apps, all work together harmoniously. But are you thinking about the relationship between different devices and displays? And how best to use them? It's important to do so, because they are a part of your larger brand and product strategy.

At 11 Main, they are thinking about design all the time. The desktop experience. And as they mature in their design thinking, they are looking at how to take advantage of what these devices have to offer. How are you thinking about your branded experience strategy?

I am very happy to say that I found the quality of the vendors to be excellent. I not only found many vendors for areas of my web business for which I was looking for at the time, but many who specialized in niche areas I never thought of. All the vendors were very knowledgeable and even the ones where their services were beyond my present needs were more than willing to start a dialog now to build a foundation for future business.
