DATA ANALYTICS IQ

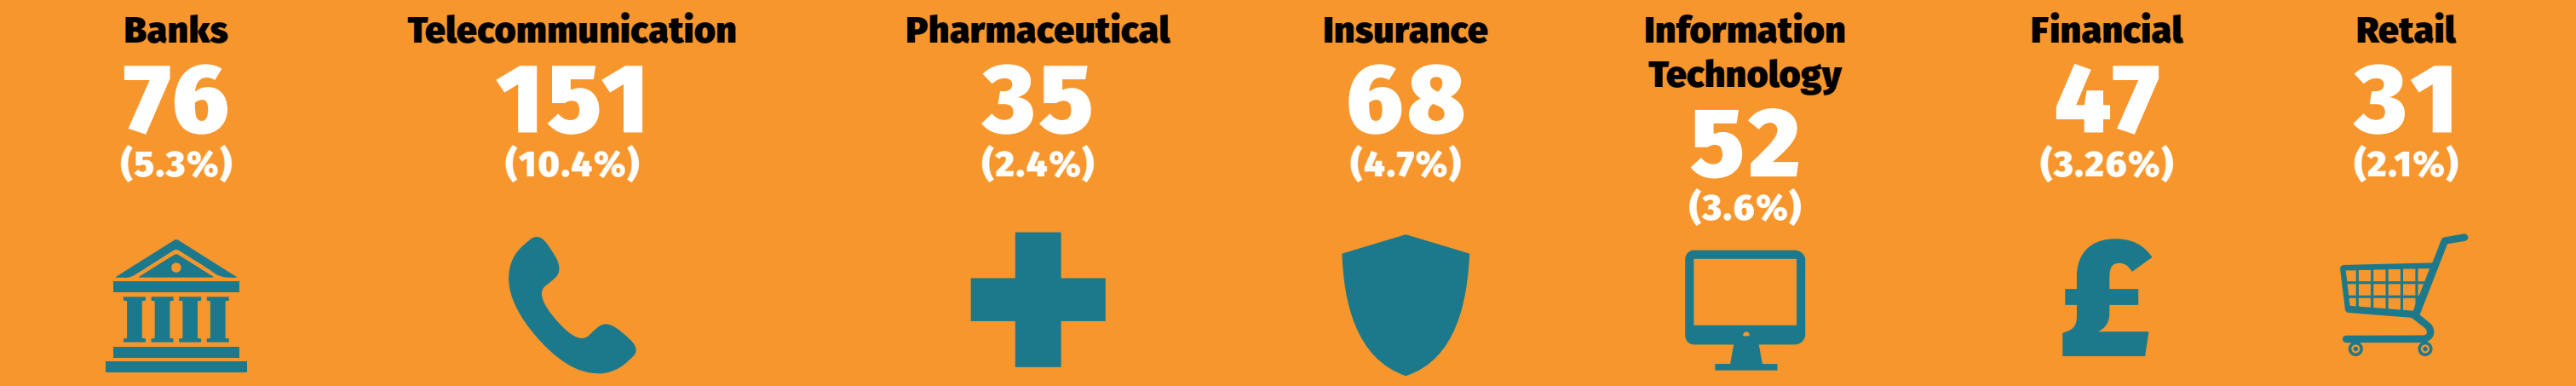

Big Data & Analytics Conferences 2016-17

A new era of mainstream adoption of big data and advanced analytics continues across the globe, offering the promise of unprecedented insight into business operations, customers, efficiency, levels of service, revenue and business models. Recognising the importance of this arena, **Data Analytics IQ** has become a world leader in organising big data and analytics conferences. European markets covered have so far included Pharma, Retail, Insurance, Telecoms and Financial Services.
